It takes great courage to address the struggles and obstacles your family may be experiencing. Now is the time to show your children that family can prevail, healing is possible and there is hope for a brighter tomorrow.

No family is ever turned away due to an inability to pay.

Let us help you.

This four-day program provides prevention and education in a safe, supportive setting. The program helps children learn they are not alone and there are other children and families who have similar experiences.

Through art, games, role-play and fun activities, children learn to identify and express feelings, develop self-care skills and deepen communication with their parents. Parents or caregivers join their children for a portion of the program. The adult component includes parent education and support.
